Introduction to MLM Advice Online: Hot Report #1

What you will learn in this short report has the ability to revolutionise your MLM / network marketing business. After you read this report get started implementing the strategy and you will see results.

IF implemented exactly as I describe.

When I started building my team using the Internet I was excited about how fast my business started to grow but there was one very big problem that became apparent early on. Whilst I came to the table with several years of Internet marketing experience, most of my new team members did not.

They did NOT know how to make a web page, get hosting, set up an auto responder or know how to do many of the tasks required to successfully generate traffic online and convert that traffic into new team members for their business.

The end result was that I was spending hours and hours helping my new associates get started and my own business growth began to slow down. For my own sanity I knew something had to change.

So I went in search of a solution that would allow a brand new associate to start generating traffic and leads for their business the very first night they joined my team. In fact using this strategy I have made money within just a few hours of setting the system in motion.

So what will this system do for you?

It will allow you to generate your own exclusive leads for your business, drive FREE traffic to your web site and make instant AND monthly residual income even if a lead never joins your primary business! You don't even need to have your own web site to implement this amazing strategy.

Are you ready to get started?

Before we go any further I want to take a minute to explain the target market for this strategy. (This is also the biggest secret that the Guru's use to explode their businesses). Your target market is people that are already involved in MLM or network marketing. Why? I know this sounds strange - just stick with me for a minute and it will all become very clear.

In your current recruiting efforts think for a minute about the most common objections you hear: "I don't have the money, I don't have the time, I am not looking for a business, is this one of those pyramids?"

When you start marketing to people already involved with MLM or network marketing who are actively LOOKING for advice to help them, can you see how these objections totally disappear?

MLM Lead System Pro.

The MLM Lead System Pro (MLSP) will brand you as the leader you are, by providing your exclusive leads with free video training, an array of fantastic tools and a duplicatable system that they need to grow their primary MLM business.

Remember, people will join you in business for one of two reasons. They either know, like and trust you, OR you have a simple system that they can picture themselves plugging into and succeeding!

By using MLSP you will be offering them BOTH of those reasons - and don't for a minute believe that people won't jump ship to join your team when they see a better system and you as a better leader!

The Funded Proposal

When a visitor opts into your branded MLSP lead capture page - which will be your own unique personal page once you get your own MLSP system set up - (Everything is 'branded' to you) they will then show up as a lead in your 'back office' in the system.

The beauty of this system is that not only will you get the contact information of the lead but you will also make healthy commissions on any of the excellent information products that they decide to purchase as they move through the MLSP prospecting funnel. Hence the term 'funded proposal' because the system itself will generate an automatic income for you.

Believe me, the MLSP educational training products are second to none and contain hot information for anyone wanting to learn 21st century internet MLM techniques and they convert to sales at an amazing rate.

The system's easy to follow, step-by-step training videos will have you generating your own exclusive, targeted leads in no time. The training is excellent and includes both live and recorded training, LIVE prospecting calls – learn real on the job tips – and it won't take you long to realise something very refreshing - there's no rejection!

You will make lots of cash when you apply what you learn in order to attract the right type of traffic to your page. Remember that the market we are targeting is fellow MLM'ers hungry for information that can help them succeed!

So let's recap....

Your MLSP Prospecting System will be the system you use to generate leads for your business AND make cold hard cash for you even if these leads never join your primary business.

You will learn multiple traffic generation strategies and techniques as you learn to mine the internet goldmine using the MLSP System and get those hot, exclusive leads rolling into your own auto responder which will then immediately start to communicate with them automatically on your behalf – and remember the whole system is branded to you.

You'll have lots of fun following up with your exclusive leads and enjoy the cold hard cash that will be pouring into your bank account!

Don't procrastinate – get started right now!

Once you have I'll be sharing LOT'S of free ways to drive traffic to your MLSP prospecting system.
